What does the data tell us?

- The 3 year trend data for ACCESS for ELLs WIDA Assessment shows a decline in all grade levels from the 2019-2020 school year to the 2020-2021 school year.
 - This past year, in 2022, almost all grade levels began to show increases in proficiency.
 - 2nd grade and 4th grade continued to decline, with a stronger decline in 2nd.
 - Additional data shows that 21 students exited the ELL program in 2020, 10 students exited in 2021, and 14 have been exited in 2022, with a proficiency score of 4.8 or greater.
 - At the end of the 2022 school year, the lower elementary grade levels are scoring in the emerging to developing proficiency levels. Upper elementary grades and middle school are scoring in the developing to expanding proficiency levels.
- 

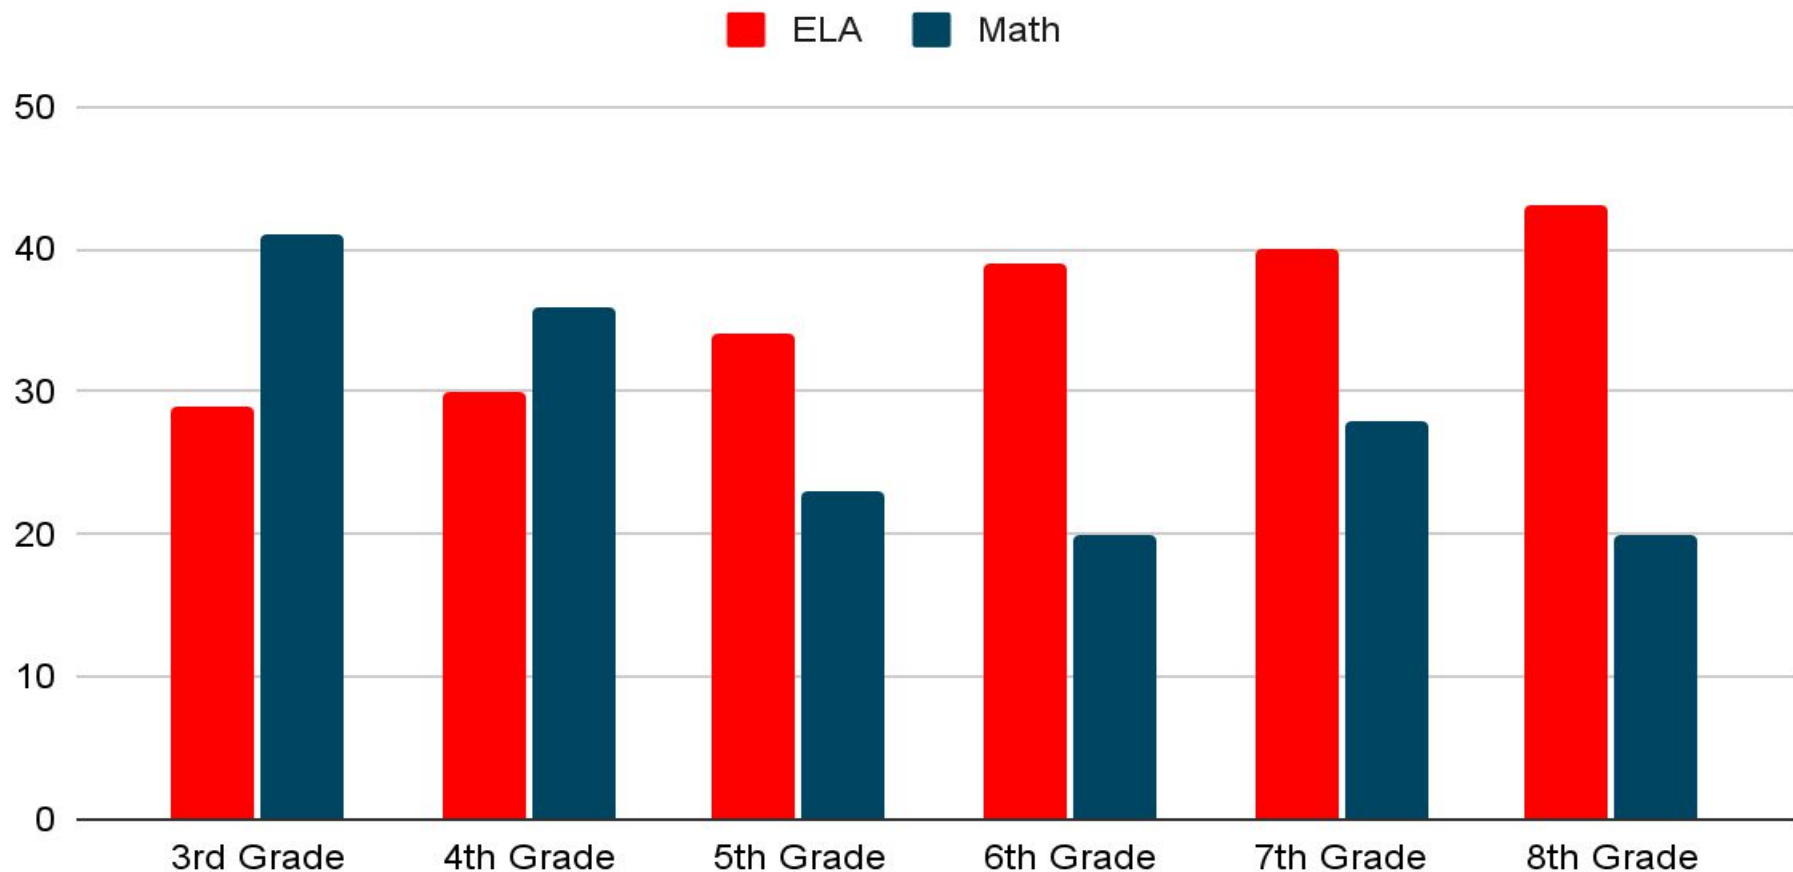

Next Steps for the ELL Program at Hanley

- This school year (2021-2022), we were able to provide almost all of our grade levels with an English Language teacher or para. We plan to continue this structure to ensure adequate push in and pull out support for high caseload numbers.
- Our 2nd grade students moving to 3rd grade will have a certified English Language teacher assigned to their caseload as we saw this past school year the strongest decline in proficiency with this grade level.
- We will continue to identify our incoming English Language Learners through home surveys given at enrollment to ensure support can be given as soon as possible.
- Progress monitoring for EL- Small group assessments/twice yearly progress reports based on WIDA standards.
- With additional space available in our building, emphasis will be placed on pull out services, instruction given as a combination of Common Core Standards as well as WIDA Standards.

ELA MSTEP

Math MSTEP

What does the data tell us?

- Overall, 3rd and 4th grade performed better on Math versus ELA. Whereas, 5th-8th grade performed better on the ELA MSTEP than the Math MSTEP.
 - Coming back from the pandemic we have seen small increases in proficiency in ELA in all grades with our biggest increases being in 6th and 7th grade.
 - Math has been trending upward as well in all grades except 6th grade. The largest increases were in 3rd, 4th, and 7th grade.
 - PSAT saw a decline in proficiency in both ELA and Math. This has been a trend since PSAT took the place of MSTEP for 8th grade.
 - Science and Social Studies continue to show very low proficiency scores in both 5th and 8th grade. There were declines in both subjects this year or no change at all.
- 

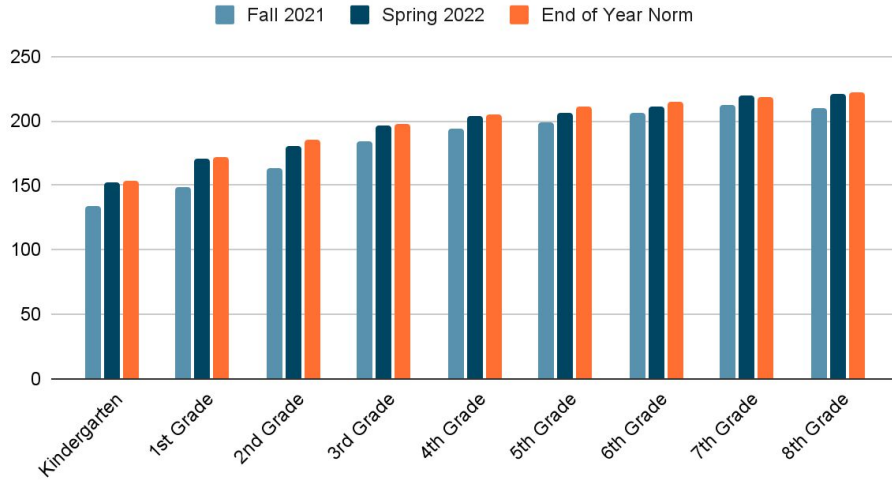

Next Steps for M-STEP at Hanley

- We will be reforming our MSTEP committee from 2019.
 - In 3rd-8th grade, classroom teachers will teach science and social studies daily instead of every other day.
 - Adding writing into 6th-8th grade with a focus on MSTEP and PSAT skills.
 - Reinstitute MSTEP minutes for ELA and Math for do nows in 3rd-8th grades. In 5th and 8th grades, MSTEP minutes for Science and Social Studies will also be used as do nows.
 - Incorporate vertical team meetings to discuss power standards across multiple grade levels.
 - Data dig meeting in August to discuss MSTEP data.

What does the data tell us?

- Although our data isn't where we want it to be, our students majorly benefited from being back in the building full time
 - Our 2nd grade students moving to 3rd grade is where we saw the strongest decline in proficiency.
 - Overall we saw a larger gain in reading throughout the 2021-2022 school year. Compared to the previous school year, math did not see the same type of growth.
 - Although our students are hitting their goals, we have some work to do in order to close the grade level gap, especially in the upper grade levels.
- 

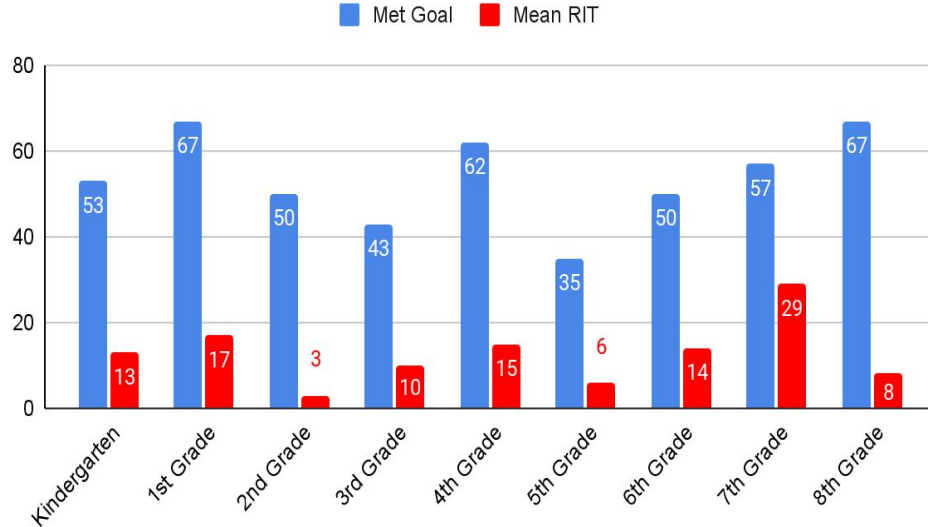

Next Steps for NWEA MAP Growth at Hanley

- Center Based Instruction for both reading and math with leveled instruction driven by data from NWEA and monthly assessments
- Our 2nd grade students moving to 3rd grade is where we saw the strongest decline in proficiency. Selective reorganization of support staff to focus on this grade level.
- With additional space available in our building, emphasis will be placed on pull out services, instruction given as a combination of Common Core Standards as well as skills from the NWEA learning continuum. We will continue to use our RTI and EL teams to strategically provide remediation for below grade level students.
- Data Digs built into professional development days
 - Use data to create MTSS Caseloads
 - Strategic planning throughout the year based on NWEA Scores
 - Students who didn't reach target RIT in Winter

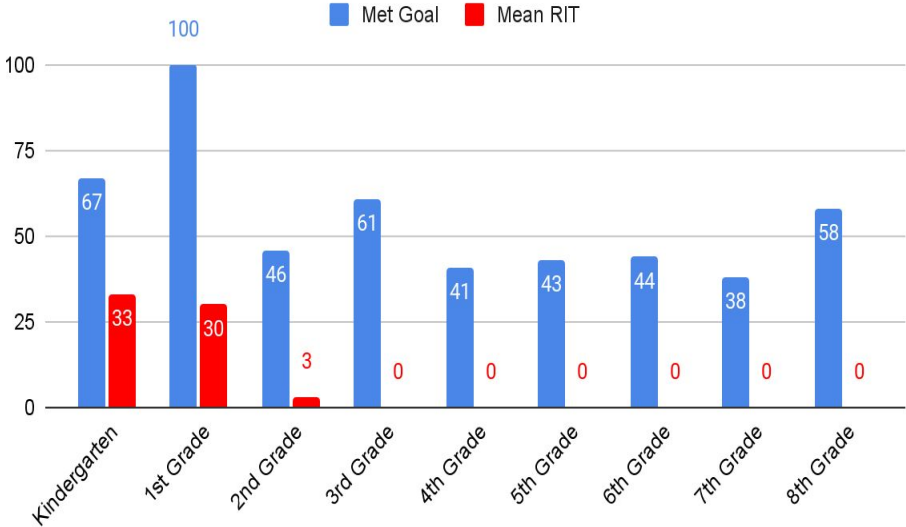

Support Services

MTSS Services

Percentage of RTI Students Who Met Goal and Grade-Level Mean RIT on NWEA Reading

Percentage of RTI Students Who Met Goal and Grade-Level Mean RIT on NWEA Math

What does the data tell us?

- Students made growth in both math and ela in all grade levels. We were able to exit 77 students from our program in math and 68 students in reading.
- Overall, more students met their NWEA goal and grade level RIT in reading than in math.
- K-1 saw the most growth toward grade level in math. In 3rd-8th grade, there was no growth in meeting grade level RIT.
- At the end of the year we had 18% of our school population that still qualified for MTSS services.

Next Steps for the MTSS (RTI) at Hanley

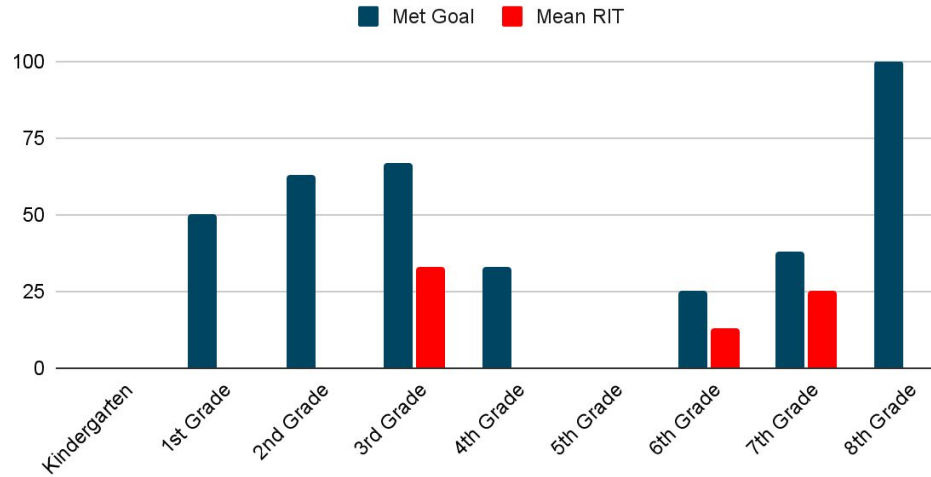

- As the instructional coach I am instituting changes to the program such as, monthly meetings, newsletters, and creating a structured progress monitoring system.
 - K-1 progress monitoring- weekly assessments
 - 2-3 progress monitoring- bi-weekly assessments
 - 4-8 progress monitoring- Read180/Math180
 - With the addition to the building, support staff will have a more structured space for instruction and move to a pull out model instead of a push in model.
 - K-1 will use the model of acceleration and remediation based on NWEA data and pacing guide.
 - 2nd-8th grade will use the model of remediation based on NWEA data.
 - 4th-8th grade will be using the Read180 and Math180 programs for remediation.
 - 60-90 minutes a week of extra instruction in the area of need. Two to three 30 minute sessions a week.
 - 3-5 students in a group in elementary and 6-8 students in middle school.
-

Special Education Data

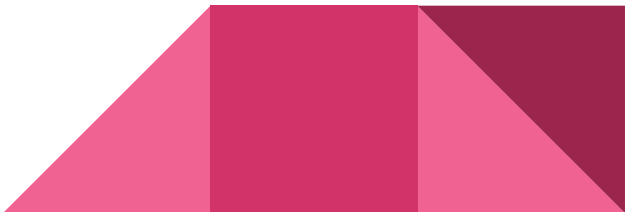

Percentage of Special Education Students Who Met Goal and Grade-Level Mean RIT on NWEA Reading

Percentage of Special Education Students Who Met Goal and Grade-Level Mean RIT on NWEA Math

What does the data tell us?

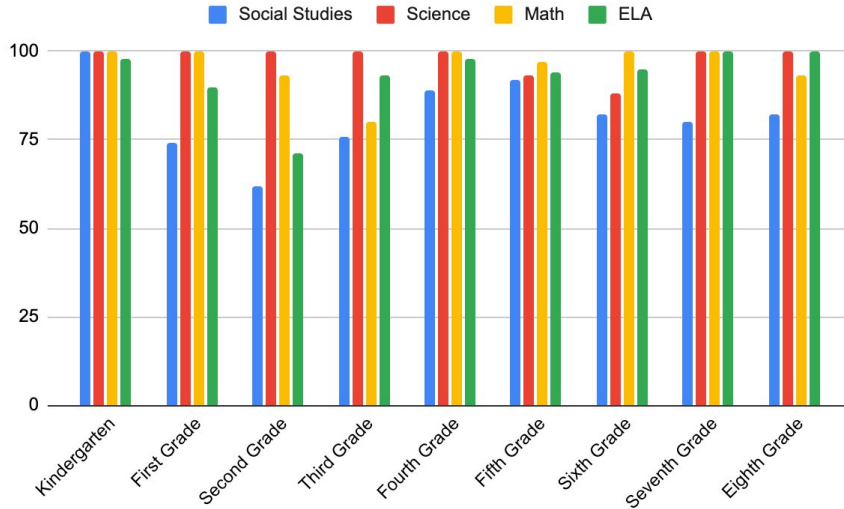

- Both Kindergarten and 5th grade caseloads failed to meet individual Reading goals, with 5th grade not hitting individual goals in Math as well
 - Greater triangulation is needed between IEP goals (service required), MAP goals & TRG Curriculum Scope and Sequence
 - 100% 8th grade caseload reached their individual goal for both Reading and Math
 - Both 4th grade and 7th grade caseloads had success with its students reaching individual MAP goals in both Reading and Math
- 

Next Steps for the SPED Program at Hanley

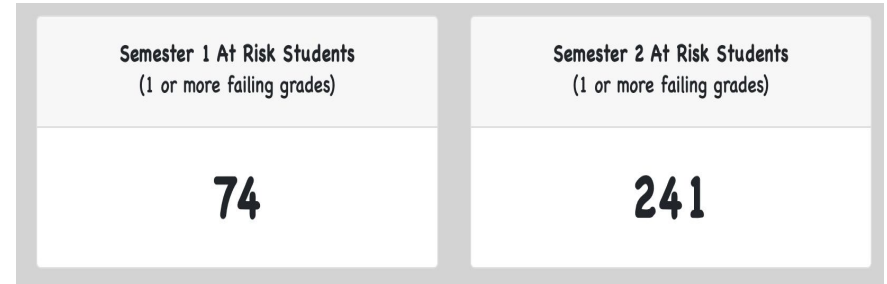

- Hired an additional Resource Room Teacher to decrease caseloads (15:1)
 - More proactive coordination within the Child Study process, where student observations prescribed resources/support, and student assessment are streamlined for efficiency
 - Including as an agenda item - data conversation in Monthly SPED Meetings
 - Stay connected to the positive B-9 Monitoring Review feedback provided by Wayne RESA and MDE
- 

TRG Dashboard

Yearly Lesson Plan Completion Percentages

At Risk Students in Semester 1 and 2

What does the data tell us?

- Yearly lesson plan completion percentages vary by subject, with the lowest percentages in the Social Studies content area.
- Lower percentages in social studies and science versus ela and math are indicative of teaching it 2x weekly versus daily.
- In digging deeper, a high percentage of standards were not used in both September and June.
- In semester 2, almost 4x as many students were failing one or more subjects than in semester 1.

Next Steps for using the Dashboard at Hanley

- Time will be carved out during August professional development to walk teachers through the TRG dashboard, specifically within lesson planning and the difference between primary standards and secondary.
- Meet with grade level teams monthly to discuss lesson plan specifics (standard completion, board objections, lesson plan structure.
- Continue using one on one meetings (O3s) to look at who are our at risk students and what we are doing to support them in individual classrooms.
- Reference TRG Dashboard with helpful tips and data points within Monday Message Newsletter.
